1. Narrative description of the Prop 28 arts education program(s) funded. (2500 character limit).

Proposition 28 provides increased investments in Arts Education, which is critical for academic growth, student personal development, social emotional expression and an overall appreciation for diversity and culture. Proposition 28 provided our school approximately \$45,571 this school year for school investments in Arts Education at Kenter Canyon Charter Elementary. Additionally, these funds allowed us to provide additional resources to our Targeted Student Populations. During the 2023-2024 budget development period, our school followed the guidance on how expenditures of Proposition 28 funds, including the State law requiring schools to use at least 80% of funds to employ certificated or classified employees to provide arts instruction. Our expenditures included Elementary Arts Itinerant. Our school utilized the remaining funds for training, supplies and materials, and arts educational partnership programs. Although this is a new program, we are grateful that California voters recognized the importance of investing in arts education through a ballot initiative. Proposition 28 funds are important to our school community as these increased investments in arts education are critical for academic growth, student personal development, social emotional expression and overall appreciation for diversity and culture.
